PIONEER

PIONEER

The overcoat has played an important part in history since its introduction in 1772, favoured by explorers and pioneers on world changing expeditions to keep out the cold and damp and by militaries for warming and protecting soldiers during conflicts.

The overcoat offers warmth, sharp lines and style. Pioneer from Hainsworth is a heavy weight tightly milled versatile cloth, allowing the true essence of the original overcoat to live on. Adding highlights of lustre, drape and structure, Pioneer ensures truly beautiful classic pieces can be sculpted by contemporary designers.

Traditionally crafted from heavy weight wool, when a 2008–2011 attempt to introduce military overcoats made of warm synthetic fibres was made in Russia, it resulted in many soldiers getting frostbite and pneumonia.
