

The FABRIC
OF A NATION

GRANITE

HAINSWORTH SIGNATURE
FABRICS

INTERIORS GRANITE

Granite combines an open hopsack weave with a traditional plain weave to produce a multi-directional textured fabric with beautiful drape. Woven using 95% Merino Wool and 5% Nylon for added strength and durability, this diverse collection is suitable for upholstery, drapes, cushions and accessories.

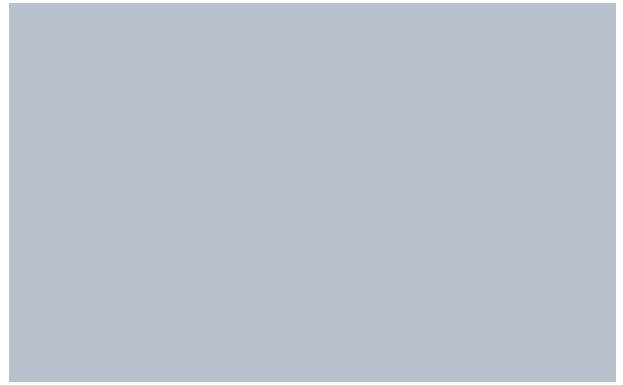

With a unique, handwoven finish reminiscent of textures found in nature and with five shades inspired by the landscape, Granite brings the best of the outdoors indoors, helping to forge a connection with the natural environment and creating a soft, comforting, and cocooning feel.
