

HAINSWORTH SIGNATURE FABRICS

HAINSWORTH
THE fabric of a nation

INNOVATION • BESPOKE • SUSTAINABILITY

Bespoke Woollen Jacquard.

Our unique Bespoke service utilises Hainsworth's fully vertical manufacturing capabilities and the centuries of knowledge held by our teams. We will work with you to develop stunning cloth completely unique to your own brand aesthetic, skilfully woven on our jacquard looms. The low minimums allow you to source, develop and sample ranges that are entirely exclusive to you, without the overwhelming initial investment required by other mills.

Bespoke Blankets and Throws.

Bring a new revenue stream to your brand with your own bespoke branded blanket or throw. Our in-house Designer will work alongside you to develop a product or range that is entirely unique to you, featuring intricate details such as logos and images; a perfect brand extension for your customers. Hainsworth is proud to be the home of the widest looms in the UK, allowing our customers to produce beautiful wide width blankets with unlimited length, something no other mill can match.

The Responsible Wool Standard.

Hainsworth have always been committed to sustainability and now that customers are rightly demanding increased transparency from their suppliers, we are proud to be one of the first British mills to complete a successful Responsible Wool Standard (RWS) audit. The standard addresses the welfare of sheep and the land they graze on and provides the fashion industry with a tool to recognize the best practices of farmers. We are encouraging our customers to work collaboratively with us to build our portfolio of RWS products over the coming years.

Slow Fashion.

Slow Fashion is an inherent quality of our business – not an add on. To us, Slow Fashion is about the entire supply chain, from fibre to consumer, making the conscious decision to design, manufacture and consume fashion in a manner that connects environmental, ethical and social responsibility and results in beautiful well made garments that last. Hainsworth cloth allows garments to maintain their original beauty despite the rigours of wear after wear and is perfect for those looking to invest in beautiful wardrobe staples that stand the test of time.
